## SKILLS SUMMARY

Dedicated and detail-oriented Fullstack Web Developer with excellent designing, developing and managing complex e-commerce sites, Banking domain and internal frameworks. Passionate and hardworking with penchant for developing user interfaces, Specializes in React JS, Next JS and Node JS.

- Develop user-friendly web applications using React JS & Node JS Collaborate with the design team to ensure seamless integration of design and technology. Write clean, reusable, and maintainable code. Debug and troubleshoot code issues. Collaborate with the team to identify areas of improvement and optimize performance. Stay up-to-date with the latest technologies and industry trends.

Programming Languages:

- ReactJS
- Nodejs
- NextJS

Scripting Languages:

- JavaScript, Typescript, ReactJS, Redux,Redux-Toolkit, jQuery
- CSS, SCSS, HTML, Bootstrap, Tailwind, Material Design

Tools:

- Github, Gitlab
- Jira, Trello, Slack

Technologies:

- AWS services like S3, EC2, Lambda Functions, Simple Queue Service, Simple Notification Service, API Gateway etc
- Azure Services like Storage Service
- Firebase Services
- Pulsar, Keycloak as OAuth2

Databases:

- MongoDB, PostgreSQL

Desktop Platform:

- MacOS

- Windows
- Linux

## **PROJECT DESCRIPTION:**

### **<https://www.superprof.co.in/>**

Developed the user interface for the admin panel, ensuring a user-friendly and responsive design.

generally superprof is Trainer, tutor, teacher finding website.

Implemented RESTful APIs to support backend functionality, optimizing data retrieval processes.

Ensured the scalability of the application by optimizing MongoDB queries and AWS services.

Collaborated closely with product managers to align development with business objectives.

Enhanced performance using Next.js server-side rendering (SSR) to improve page load times.

Managed security best practices, including authentication and authorization protocols.

### **<https://fishykart.in/>**

Designed and built the user interface, ensuring mobile-first design principles for responsive functionality.

generally fishykart is fish booking & fish aquarium website.

Created and integrated RESTful APIs to manage core functionality like booking and event management.

Implemented AWS S3 for media storage, optimizing image and file handling for faster load times.

Collaborated with the backend team to integrate payment gateways and third-party services.

Performed unit and integration testing to ensure reliable code quality.

Improved site performance through code-splitting and lazy loading in React.

### **<https://www.winni.in/>**

Handled the user interface design and development for the admin panel, ensuring intuitive user experience.

generally winni is Gift items Booking Website.....

Developed RESTful APIs to enhance interaction between the front-end and back-end.

Integrated MongoDB Atlas for database management and optimized the data models for scalability.

Implemented SEO best practices within the Next.js structure to enhance organic search rankings.

Coordinated with the design team to improve the visual aesthetics of the user interface.

Developed caching mechanisms using Redis to improve backend performance and reduce serverload.

### **<https://www.abiconsultants.in/>**

Created the admin panel's user interface with an emphasis on usability and accessibility.

generally abiconsultants company website for Hiring employee.

Built RESTful APIs to support various backend processes, including project management and resource allocation.

Integrated AWS Lambda for serverless functions, reducing infrastructure complexity and cost.

Ensured cross-browser compatibility for the front-end, optimizing it for various devices and resolutions.

Developed a real-time data sync feature between the front-end and back-end, enhancing user experience.

Utilized Next.js dynamic routing to create seamless page transitions.

## **<https://dlifeinteriors.com/>**

Designed and implemented the admin panel UI with a focus on reducing complexity for nontechnical users.

generally dlifeinteriors is Contemporary Home Interior Designers website...

Developed necessary RESTful APIs to integrate front-end with back-end services, such as inventory management.

Implemented AWS CloudFront to optimize content delivery and improve site performance globally.

Enhanced the front-end's responsiveness and speed using Tailwind CSS for faster UI development.

Set up CI/CD pipelines with AWS CodePipeline for automated deployment and testing.

Performed performance audits and refactored code to improve the site's Lighthouse scores.

## **<https://clovedental.in/>**

Designed and built the user interface, ensuring mobile-first design principles for responsive functionality.

generally clovedental is Dental Problems & Treatments website...

Created and integrated RESTful APIs to manage core functionality like booking and event management.

Implemented AWS S3 for media storage, optimizing image and file handling for faster load times.

Collaborated with the backend team to integrate payment gateways and third-party services.

Performed unit and integration testing to ensure reliable code quality.

Improved site performance through code-splitting and lazy loading in React.

## **<https://digitaldocsys.in/>**

Created the admin panel's user interface with an emphasis on usability and accessibility, Accounts Automation Software in India Name is Intelligere.

At Intelligere, our mission is to empower businesses by eliminating manual accounting tasks, reducing errors, and providing real-time insights. We believe that automation is the key to unlocking your team's potential, allowing them to focus on strategic initiatives rather than repetitive manual work.

Created and integrated RESTful APIs to manage core functionality like booking and event management.

Implemented AWS S3 for media storage, optimizing image and file handling for faster load times.

Collaborated with the backend team to integrate payment gateways and third-party services.

Performed unit and integration testing to ensure reliable code quality.

Improved site performance through code-splitting and lazy loading in React.

## **PROFESSIONAL EXPERIENCE**

### **Techsunset (Bengaluru) — Fullstack Web Developer**

August 2020 – February 2025

### **ROCA BATHROOM PRODUCTS PVT. LTD.— Automation Engineer**

July 2018 - July 2019

### **MODERN INSULATORS LTD.— Automation Engineer**

October 2017 - September 2018

### **Insulators & Electricals Company— Automation Engineer**

November 2012 - September 2017

## EDUCATION

### **Technocrats Institute of Technology &Science — *First Division(69.31%)***

2008 – 2012, Rajeev Gandhi Proudhyogiki Vishvidyalaya, Bhopal, Madhya Pradesh

### **School For Excellence, Bhopal— *First Division(83.11%)***

2007 – 2008, Board of Secondary Education Madhya Pradesh, Bhopal

### **Saraswati Vidhya Mandir, Bhopal— *First Division(85%)***

2005 – 2006, Board of Secondary Education Madhya Pradesh, Bhopal

## CERTIFICATION

### **MERN STACK (Wapinstitute -Reg/id: M\_KSWOOWZB)**

6 September 2019 to 11 JUNE 2020
